120x180cm

The 120x180cm slab is crafted as the ideal marble size striking a perfect balance between expansive coverage and seamless elegance. Its generous dimensions enhance the natural flow of veins and textures, making it a flawless choice for flooring and wall applications that demand a true marble aesthetic. with minimal joints and grand visual impact, this size brings out the luxury of stone in its most refined form.

THE COLORTILE DESIGN PROCESS:

1.

GLOBAL SOURCING OF MARBLE INSPIRATIONS

We begin by handpicking the finest marble slabs from quarries across Italy, Spain, Turkey, and India each selected for its unique character, depth, and heritage.

2.

HIGH-RESOLUTION SCANNING

Every selected marble slab is meticulously scanned using advanced optical systems to capture the finest details every vein, texture, and transition.

3.

VEIN OPTIMIZATION

Unwanted or chaotic veins are digitally removed. We refine the patterns to enhance visual harmony without compromising the authenticity of natural stone aesthetics.

4.

COLOR CORRECTION & HARMONIZATION

The next step involves precision color grading. Our designers perfect each tone making it richer, cleaner, and more adaptable to real-world architectural needs.

WHITE PALETTE

THE LANGUAGE OF PURITY & VOLUME

White marble is the soul of classical and modern architecture. It brings openness, minimalism, and a reflective calm. In homes, it elevates luxury. In commercial spaces, it multiplies spatial perception.

BEIGE PALETTE

THE LANGUAGE OF WARMTH & HERITAGE

Beige tones bridge tradition and comfort. Perfect for earthy, cultural, or Mediterranean-inspired themes, they add a timeless elegance and warmth to both modern and ethnic interiors.

GREY PALETTE

THE LANGUAGE OF URBAN SOPHISTICATION

Grey marble represents a balance of restraint and refinement. It complements contemporary design, industrial aesthetics, and monolithic spaces making it a favorite for architects who want bold neutrality.

SURFACE

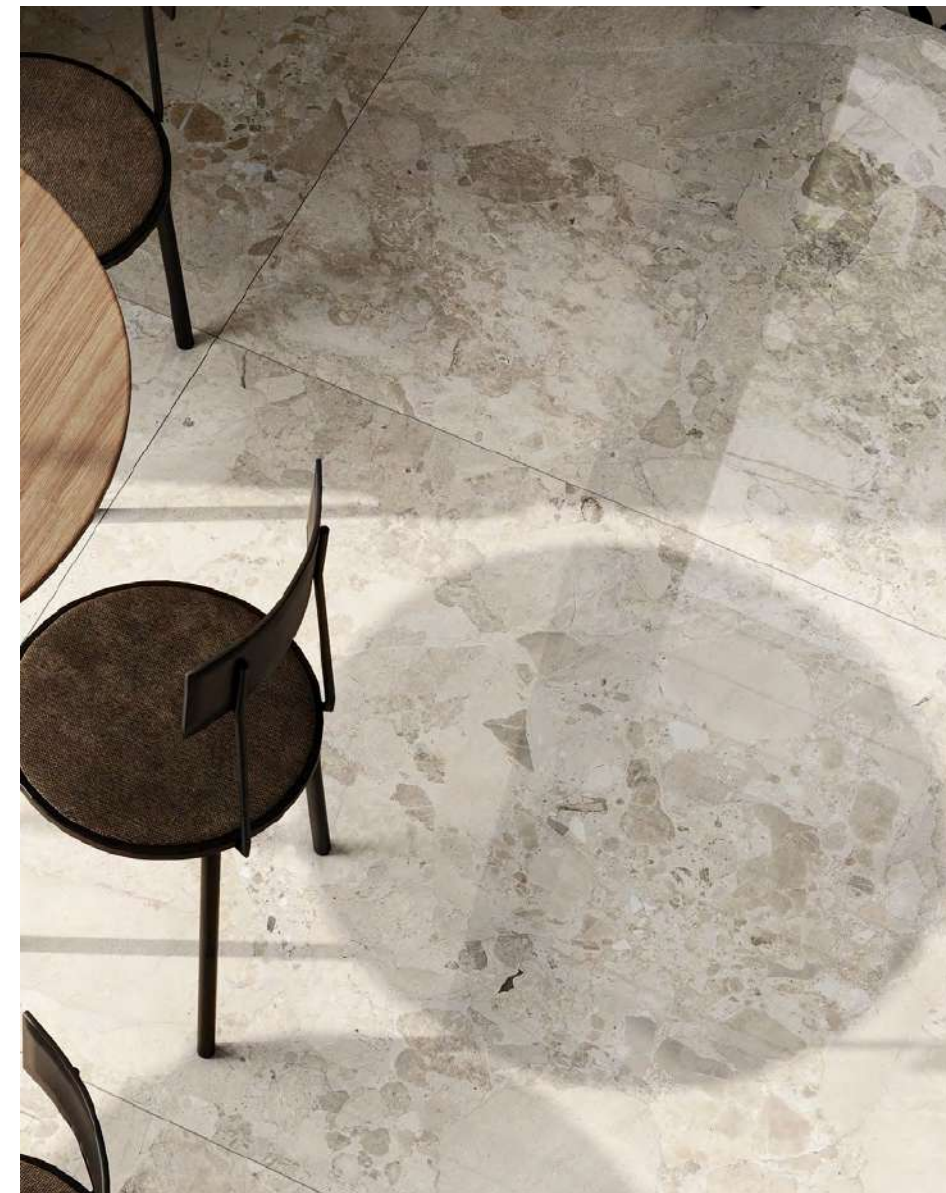

LUSH

We begin by handpicking the finest marble slabs from quarries across Italy, Spain, Turkey, and India each selected for its unique character, depth, and heritage.

MATT

We craft the surface to offer a smooth, matt finish that enhances spatial warmth while preserving the raw elegance of natural stone aesthetics.

GLOSSY

Unwanted or chaotic veins are digitally removed. We refine the patterns to enhance visual harmony without compromising the authenticity of natural stone aesthetics.

ASTRA RAW COTTON

This image showcases a sophisticated modern interior with a warm, natural aesthetic. The space is defined by extensive light-colored wood paneling on the walls and ceiling, which is accented with recessed linear lighting. On the left, a dark wood upright piano stands against a wall of vertical wood slats. The central area features a large, rectangular wooden dining table surrounded by chairs with cane backs and dark frames. A long, low wooden island separates the dining area from the kitchen, which is enclosed by glass-fronted cabinets and a dark countertop. A striking chandelier with numerous thin, vertical rods and white, bird-like or leaf-like ornaments hangs over the dining table. To the right, a large floor-to-ceiling window is dressed with light-colored curtains, providing a view of a lush green landscape. The floor is composed of large, light-colored tiles with a subtle, organic pattern. A large potted plant adds a touch of nature to the dining area.

b) Edge Curvature					
c) Warpage		± 0.5%	± 2.0	± 0.20%	± 1.5
Surface Quality		A minimum of 95% of the tiles shall be free from visible defects that would impair the appearance of a major area of tiles.		Compliant	

Physical Properties			
Water Absorption	UNI EN ISO 10545-3	Eb ≤ 0.5% Individual maximum: 0.6% (absorbed water mass)	Eb ≤ 0.060% (absorbed water mass)
Breaking Strength	UNI EN ISO 10545-4	Min. 1300 N	≥ 1700 N
Modulus of Rupture		Average minimum 35 N/mm² Individual minimum 32 N/mm²	≥ 40 N/mm²
Frost Resistance	UNI EN ISO 10545-12	Required	Frost Proof
Coefficient of Linear Thermal Expansion From Ambient Temperature to 100°C	UNI EN ISO 10545-8	Required	Max 0.02mm
Scratch Hardness (Mohs scale)	EN 101	Glossy Surfaces, Minimum 2	3 to 6 Depends on Finish & Color
Crazing Resistance	UNI EN ISO 10545-11	Declared by the producer	Min 6 Cycle Pass

Chemical Properties			
Resistance to Staining	UNI EN ISO 10545-14	Minimum Class 3	5
Resistance to Household Chemicals and Swimming Pool Salts	UNI EN ISO 10545-13	Minimum GB	GA
Resistance to Low Concentrations of Acids and Alkalis		To be reported	GLA
Resistance to High Concentrations of Acids and Alkalis		To be reported	GHA
